E-commerce over Extranet :-

15

16 An Extranet is an extension of intra-
 17 net ~~with~~ which makes accessible to
 18 outside companies or individual. It is
 19 also defined as a collaborative
 internet connection with other companies
 and business partners. Parts of
 an intranet are made available to
 customers or business partners for
 specific applications. The extranet
 is thus an extension extended
 intranet, which isolates business
 communication from the internet
 through secure solutions.
